WORK EXPERIENCE

Mobile Application Developer | *Promet Bilgi Sistemleri*

Feb 2026 – Present

Ankara | Full-Time | On-site

- Contributed to the architecture and delivery of 2 production-level Flutter applications within a 10-member development team, supporting features used by 1,000+ end users.
- Designed and integrated RESTful API and Firebase Authentication layers, reducing failures by 20% and enabling real-time data synchronization across services.
- Improved application performance by 15% through state-management and rendering optimizations, applying structured problem-solving to reduce technical debt.
- Diagnosed and resolved critical production issues, reducing crash rates by 25% and improving overall system stability.

Co-Founder & Full-Stack Developer | *Koloniyas D.o.o.*

Jan 2025 – Feb 2026

Sarajevo | Self-Employed | On-site

- Co-founded a software agency and helped design the technical direction for full-stack web and mobile solutions delivered to 8+ businesses.
- Architected full-stack applications (React, Flutter, PostgreSQL, WordPress), defining reusable component structures and data models that reduced development time by 20%.
- Partnered with the Tech Lead on key technical decisions and implementation priorities, contributing to the on-time delivery of 90%+ of projects.
- Owned end-to-end client communication and contract negotiation, translating business requirements into technical scope and achieving a 95% client satisfaction and retention rate.
- Introduced JIRA-based workflows to plan and prioritize implementation by business impact, increasing sprint delivery efficiency by 15%.

Business Development Manager | *DAKAEi AI*

Dec 2024 – Jan 2026

Ankara | Part-Time | Hybrid

- Represented an AI startup offering unified access to multiple AI tools through a single, cost-efficient platform, increasing product awareness among 50+ potential clients and partners.
- Built partnerships and initiated collaboration discussions, generating 15+ qualified business leads.
- Participated in 5 regional startup and technology events, presenting the platform to investors and industry professionals at The Founder Games.

Agency Relations Officer | *Heritage Hotel Krone*

Oct 2024 – Dec 2025

Sarajevo | Contract | On-site

- Established and strengthened partnerships with 30+ travel agencies, increasing agency-based bookings by 25%.
- Secured 3 new agency collaborations, expanding the hotel's agency network and market visibility.

Frontend Developer | *HaydeSoft*

Mar 2023 – Jun 2023

Ankara | Part-Time | Hybrid

- Built and improved responsive UI components using HTML, CSS, JavaScript, and React for a real-world client project.
- Translated 2 Figma designs into functional, production-ready web interfaces.
- Collaborated within a full-stack team using version control and agile practices, contributing to on-time delivery of project milestones.

Undergraduate Technical Assistant | *Simurg Media D.o.o.*

Jan 2021 – Jun 2021

Sarajevo | Part-Time | On-site

- Built and managed a WordPress website for a client project.
- Designed promotional materials and produced an advertisement video using Adobe Photoshop, Illustrator, and Premiere Pro.
- Performed hardware maintenance and system upgrades for 15+ workstations, improving operational efficiency.
- Assisted in installing network infrastructure, including cabling, sockets, and switch connections.
